

# FDO for a Global Integrated Data Space

Dr. Sven Bingert  
[sven.bingert@gwdg.de](mailto:sven.bingert@gwdg.de)

07.10.2025  
European Cloud Accelerator Workshop

## Recap from yesterday

- “Get Data Accessible instead of copying”
- “Allow machines processing data”
- Persistence of information (digital product pass for buildings > 10 years)

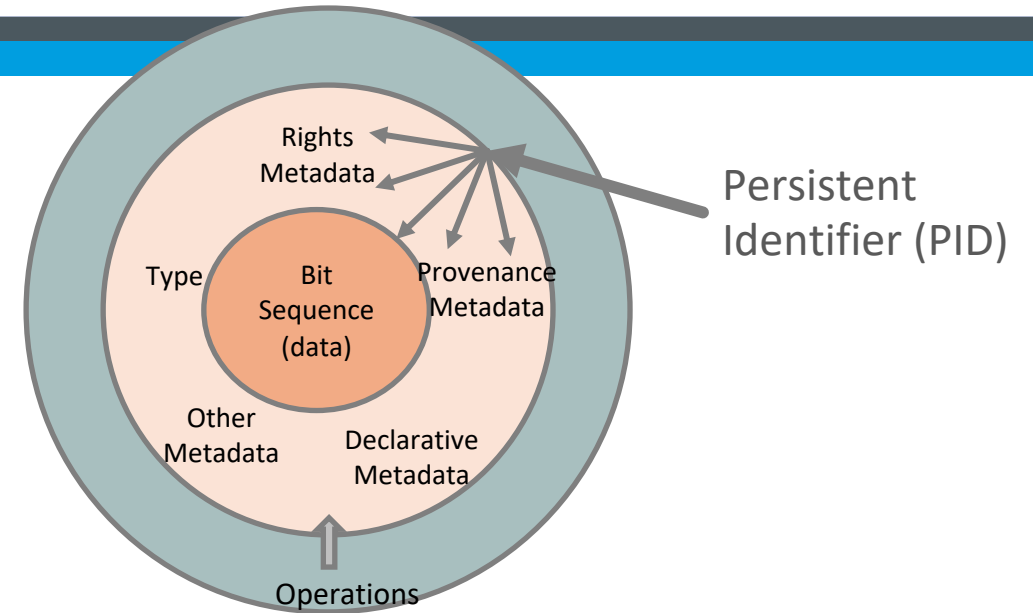

## Support by the internet pioneers

- Follow George Strawn's advice:
  - FAIR Digital Objects (FDO) combine dataspace as the Internet combined computer networks
  - The Web was designed to enable humans to access media data, the GIDS with FDOs is designed to access all data by humans and machines

## FDO Concept

- **Persistent Identification** of information
- Resolution of identifiers in **established trusted system**
- Machine **Readability** and Machine **Actionability**
- Resolution (Process) leads to **informed decision making**
- **link Data** with **Operations** with **Services**

# FAIR Digital Objects

What is the FDO concept

- A data management solution for the internet
- The internet as a global “data space”
- Simple Requirements -> complex implementation

# Typing is the key

- to achieve **machine actionability** (not only readability)
- to overcome semantic interoperability issues

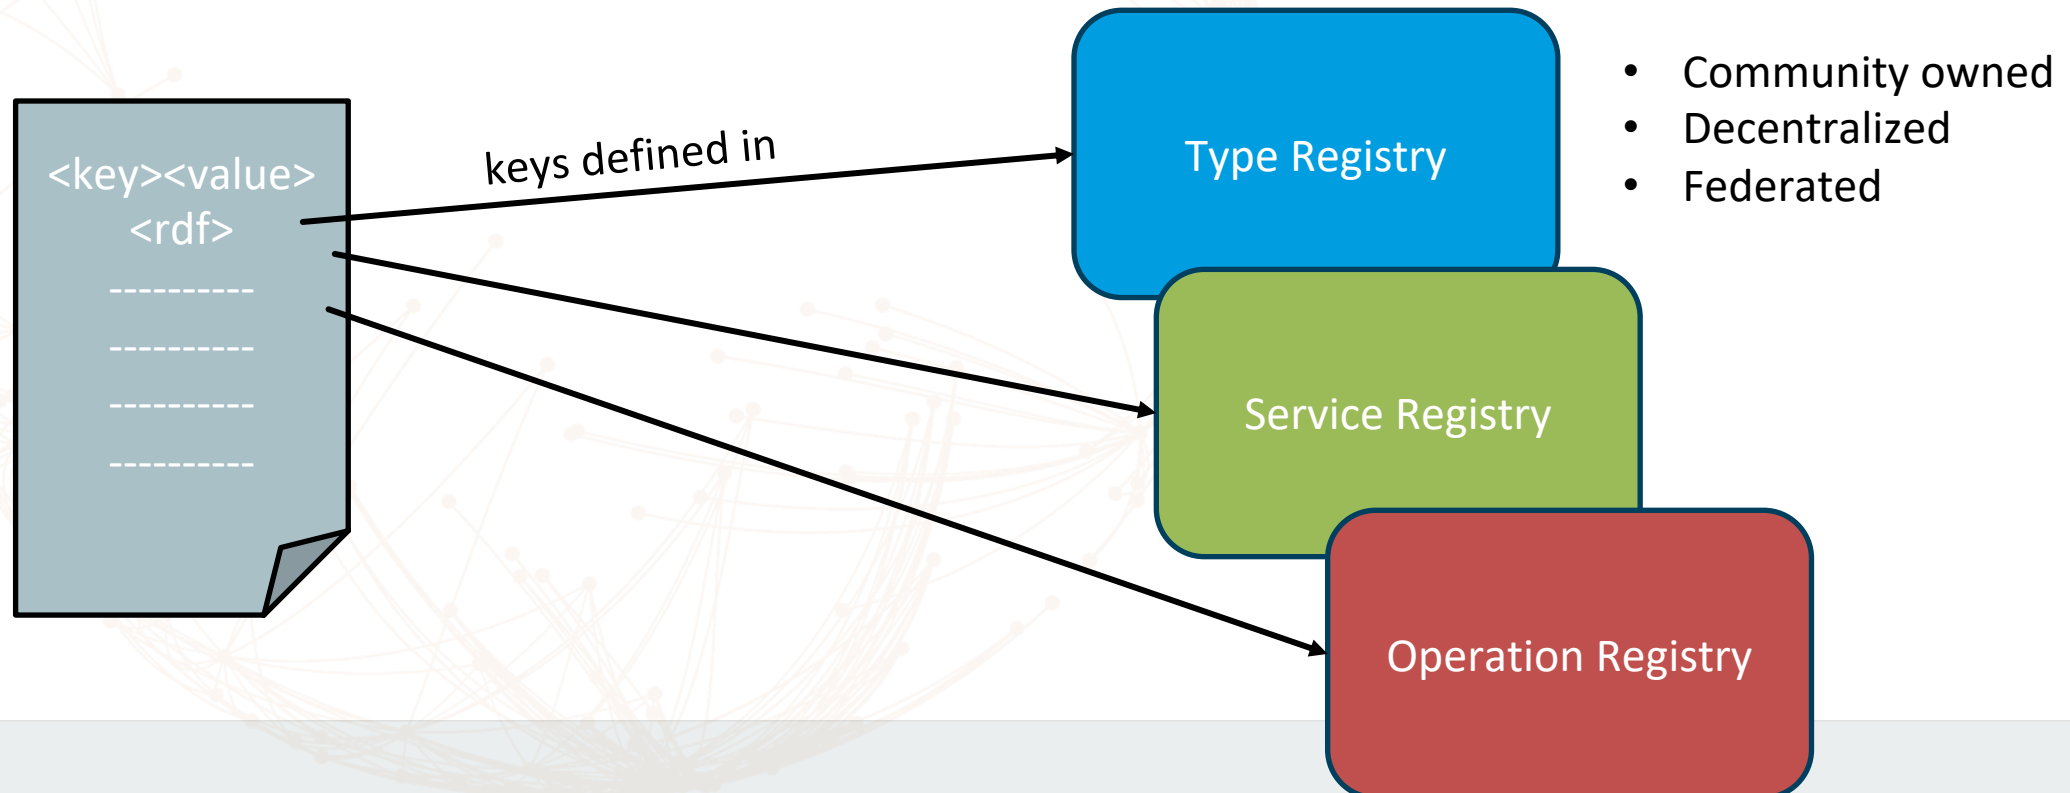

## Handle Values for: 21.T11975/service

Index	Type	Timestamp	Data

## Typing is the key

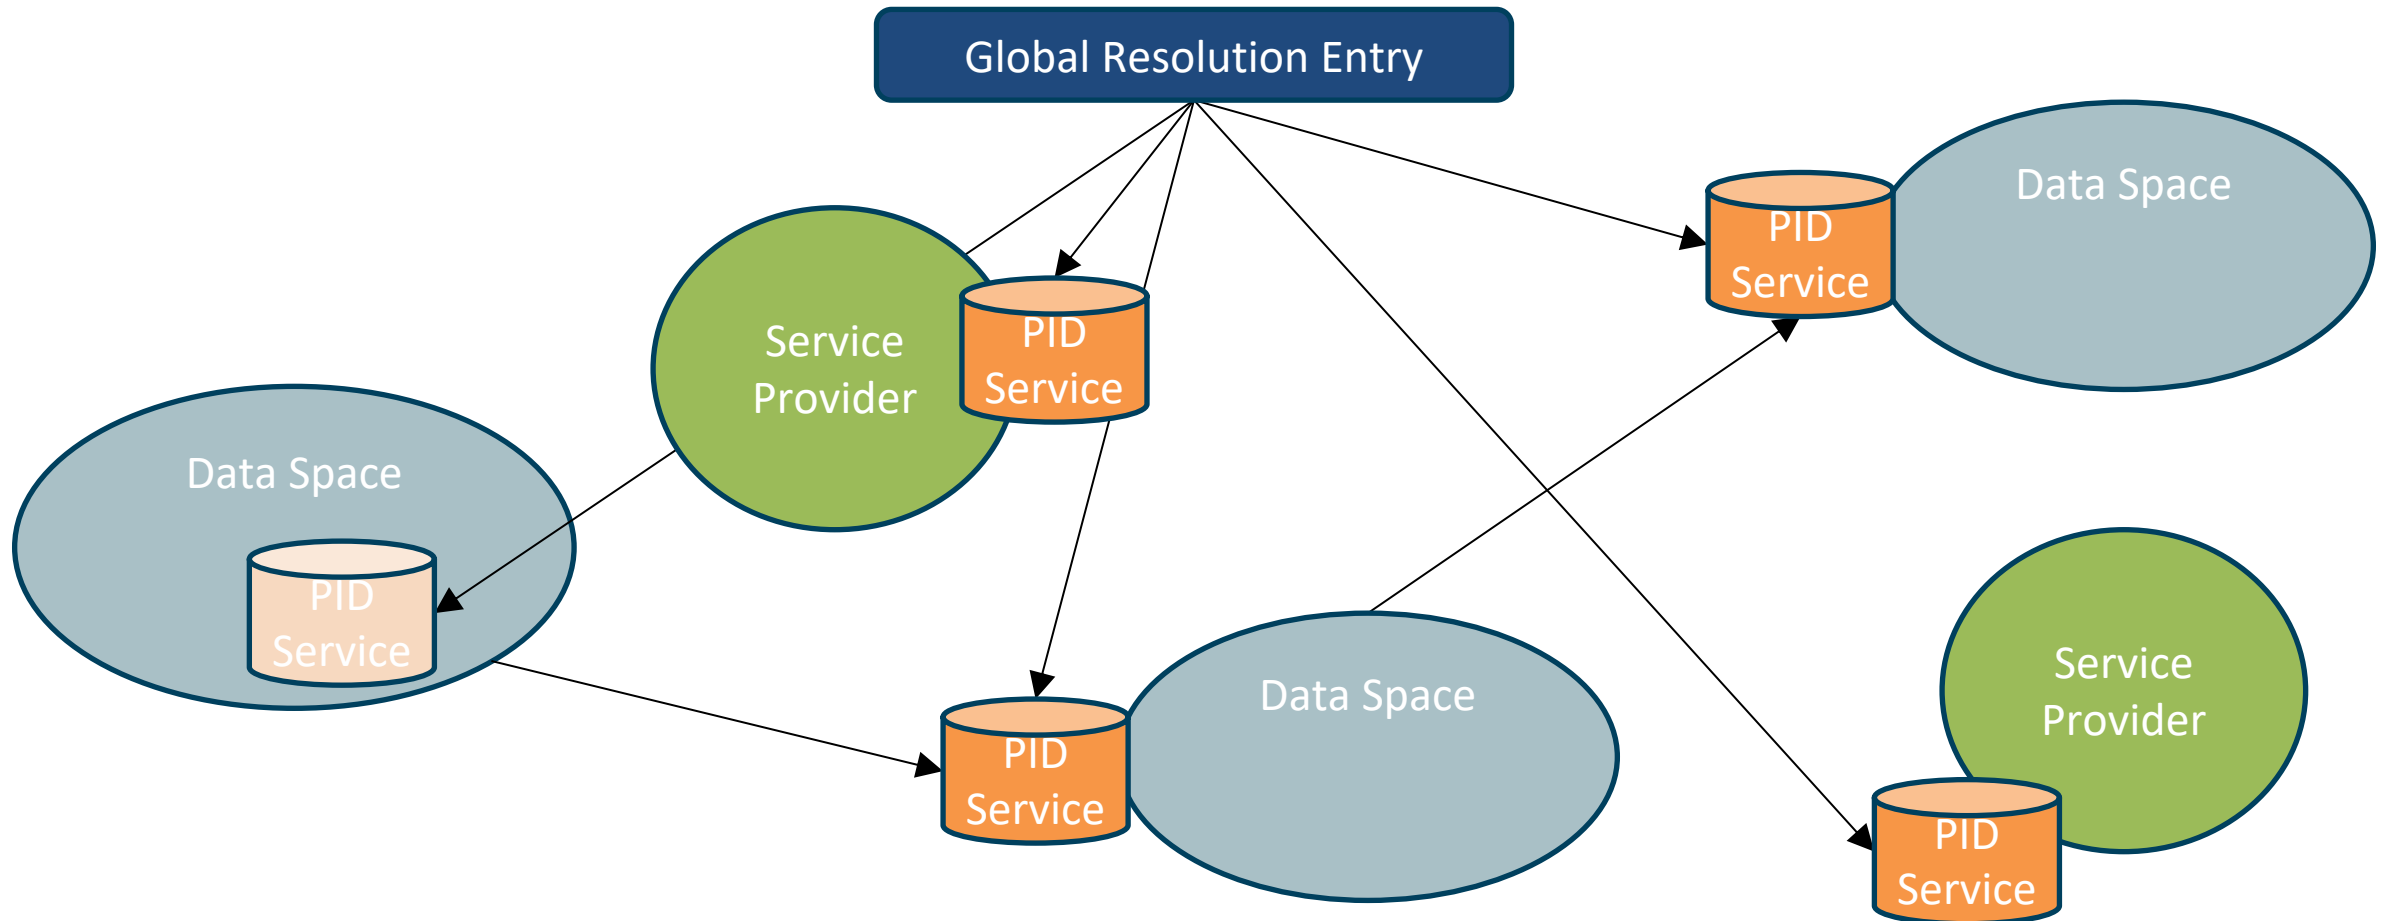

- to achieve **machine actionability** (not only readability)
- to overcome semantic interoperability issues

# Persistent Identification

## Decentralized globally resolvable PIDs

# DONA

- Digital Object Naming Authority (DONA)
- **DONA is a Swiss foundation** hosting an international consortium that governs the Handle structure at the top level in **close collaboration with ITU-T**
  - was founded 2012 in Geneva
  - administers the system's Global Handle Registry and accredits MPAs
  - current Multi-Primary Administrators (MPA): 9
- The consortium will moderately grow in future

DONA

Digital Object Numbering Authority  
DONA (www.dona.net)

Members of DONA (MPAs)

Smart Africa Alliance

Corporation for National  
Research Initiatives  
(CNRI)

Chinese Handle Coalition  
(CHC)

Tunisian Internet Agency  
(Ati)

MISAVA Agency for  
Digital Identifiers  
(MISADI)

International DOI  
Foundation (IDF)

Public Joint-stock  
Company Rostelecom

Communications and  
Information Technology  
Commission (CITC)

Gesellschaft für  
wissenschaftliche  
Datenverarbeitung mbH  
Göttingen (GWDG)

Members of ePIC

- GWDG
- DKRZ
- GRnet
- SURF
- .....

Members of IDF

- DataCite
- Crossref
- Japan Link Center
- EIDR
- ....

# FDO CONNECT

FDO Connect wird im Rahmen der Initiative MISSION KI – Nationale Initiative für Künstliche Intelligenz und Datenökonomie entwickelt. MISSION KI wird vom ehemaligen Bundesministerium für Digitales und Verkehr bis Ende 2025 gefördert und von acatech – Deutsche Akademie der Technikwissenschaften umgesetzt.

gefördert von

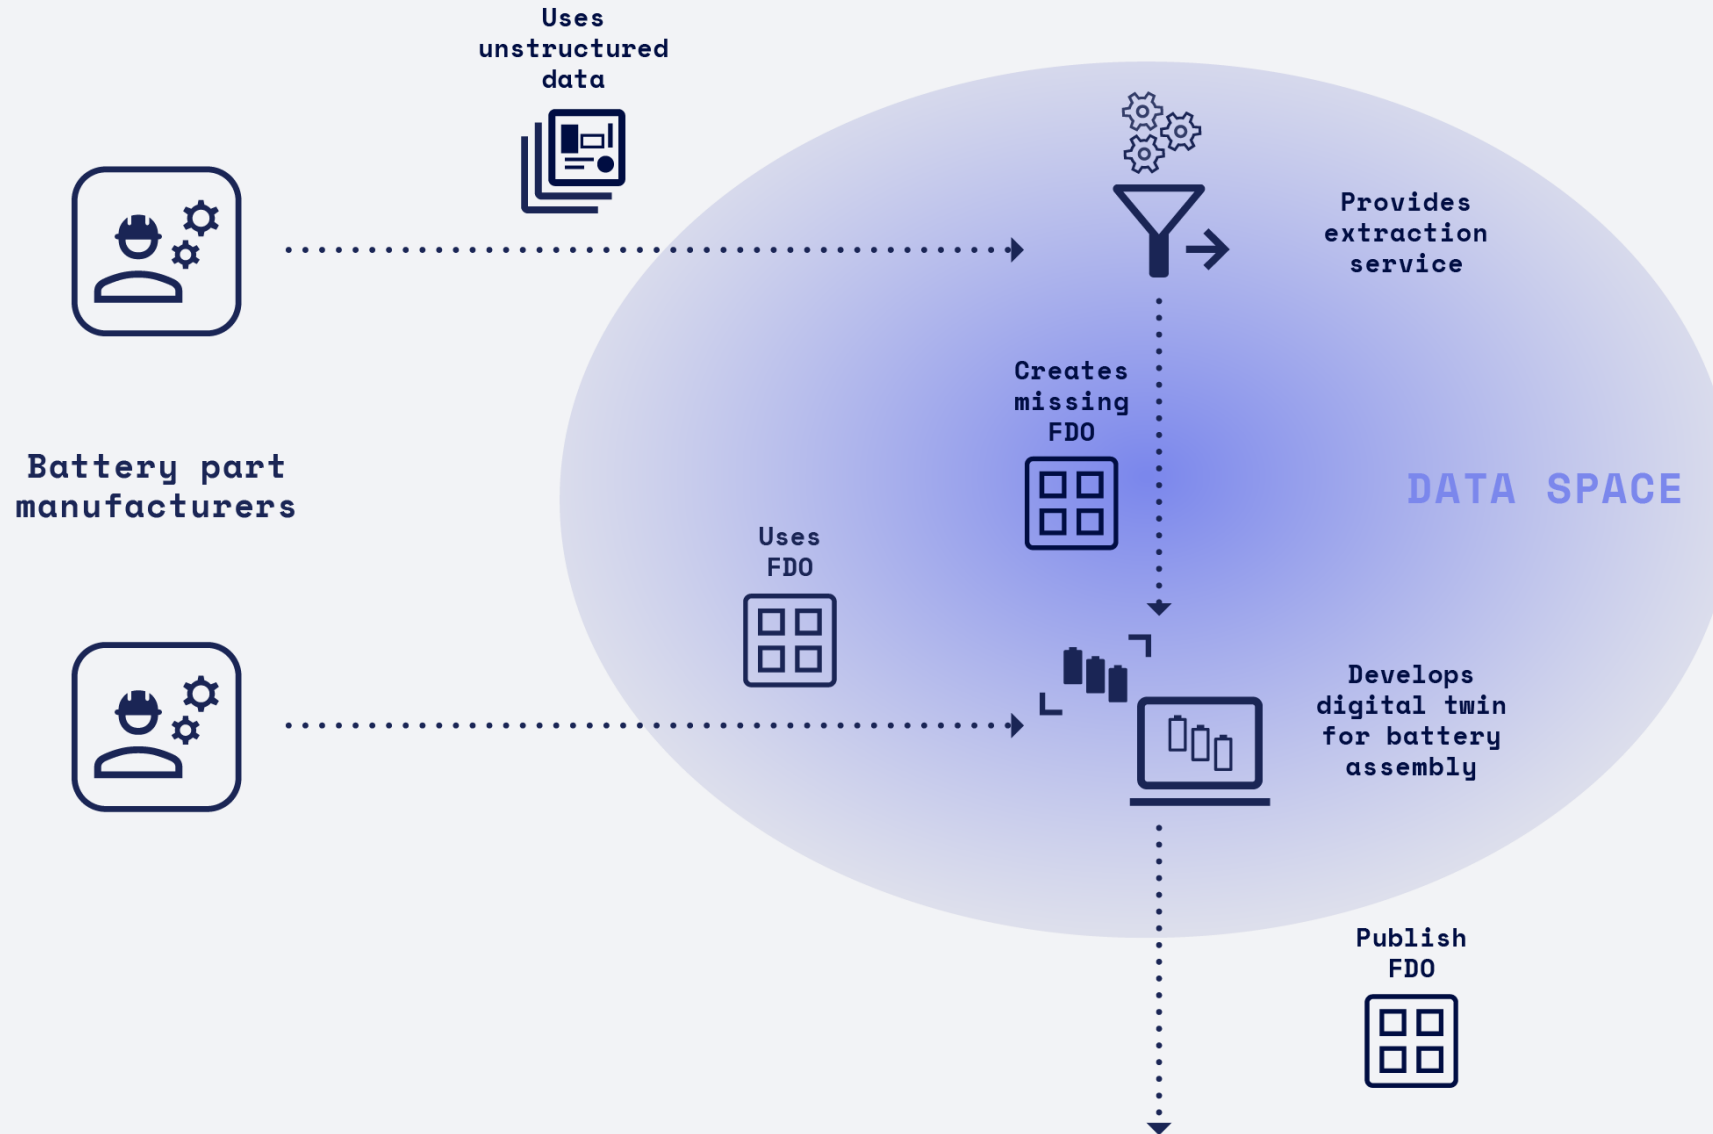

- Advance Machine Intelligence (AMI)
- Deutsches Forschungszentrum für Künstliche Intelligenz Bremen (DFKI)
- Deutsches Institut für Normung (DIN)
- Leibniz-Institut für Informationsinfrastruktur (FIZ Karlsruhe)
- Fraunhofer-Institut für Angewandte Informationstechnik (FIT)
- Fraunhofer-Institut für Software- und Systemtechnik (ISST)
- Frankfurt School of Finance & Management (FSofM)
- Gesellschaft für wissenschaftliche Datenverarbeitung Göttingen (GWDGG)
- Hochschule Hannover (HS)
- IndiScale
- Karlsruher Institut für Technologie (KIT)
- Knowledge Pixels
- Lehrstuhl für Informations- und Automatisierungssysteme (IAT) und IT-Center der Rheinisch-Westfälische Technische Hochschule Aachen (RWTHA)
- Oliver Rack (Nextlearning)
- Prof. Dr. Martini
- Spirit Legal
- Fachbereiche Physik und Elektrotechnik (FB1), Mathematik und Informatik (FB3) und Wirtschaftswissenschaften (FB7) der Universität Bremen
- YottaSen

connect

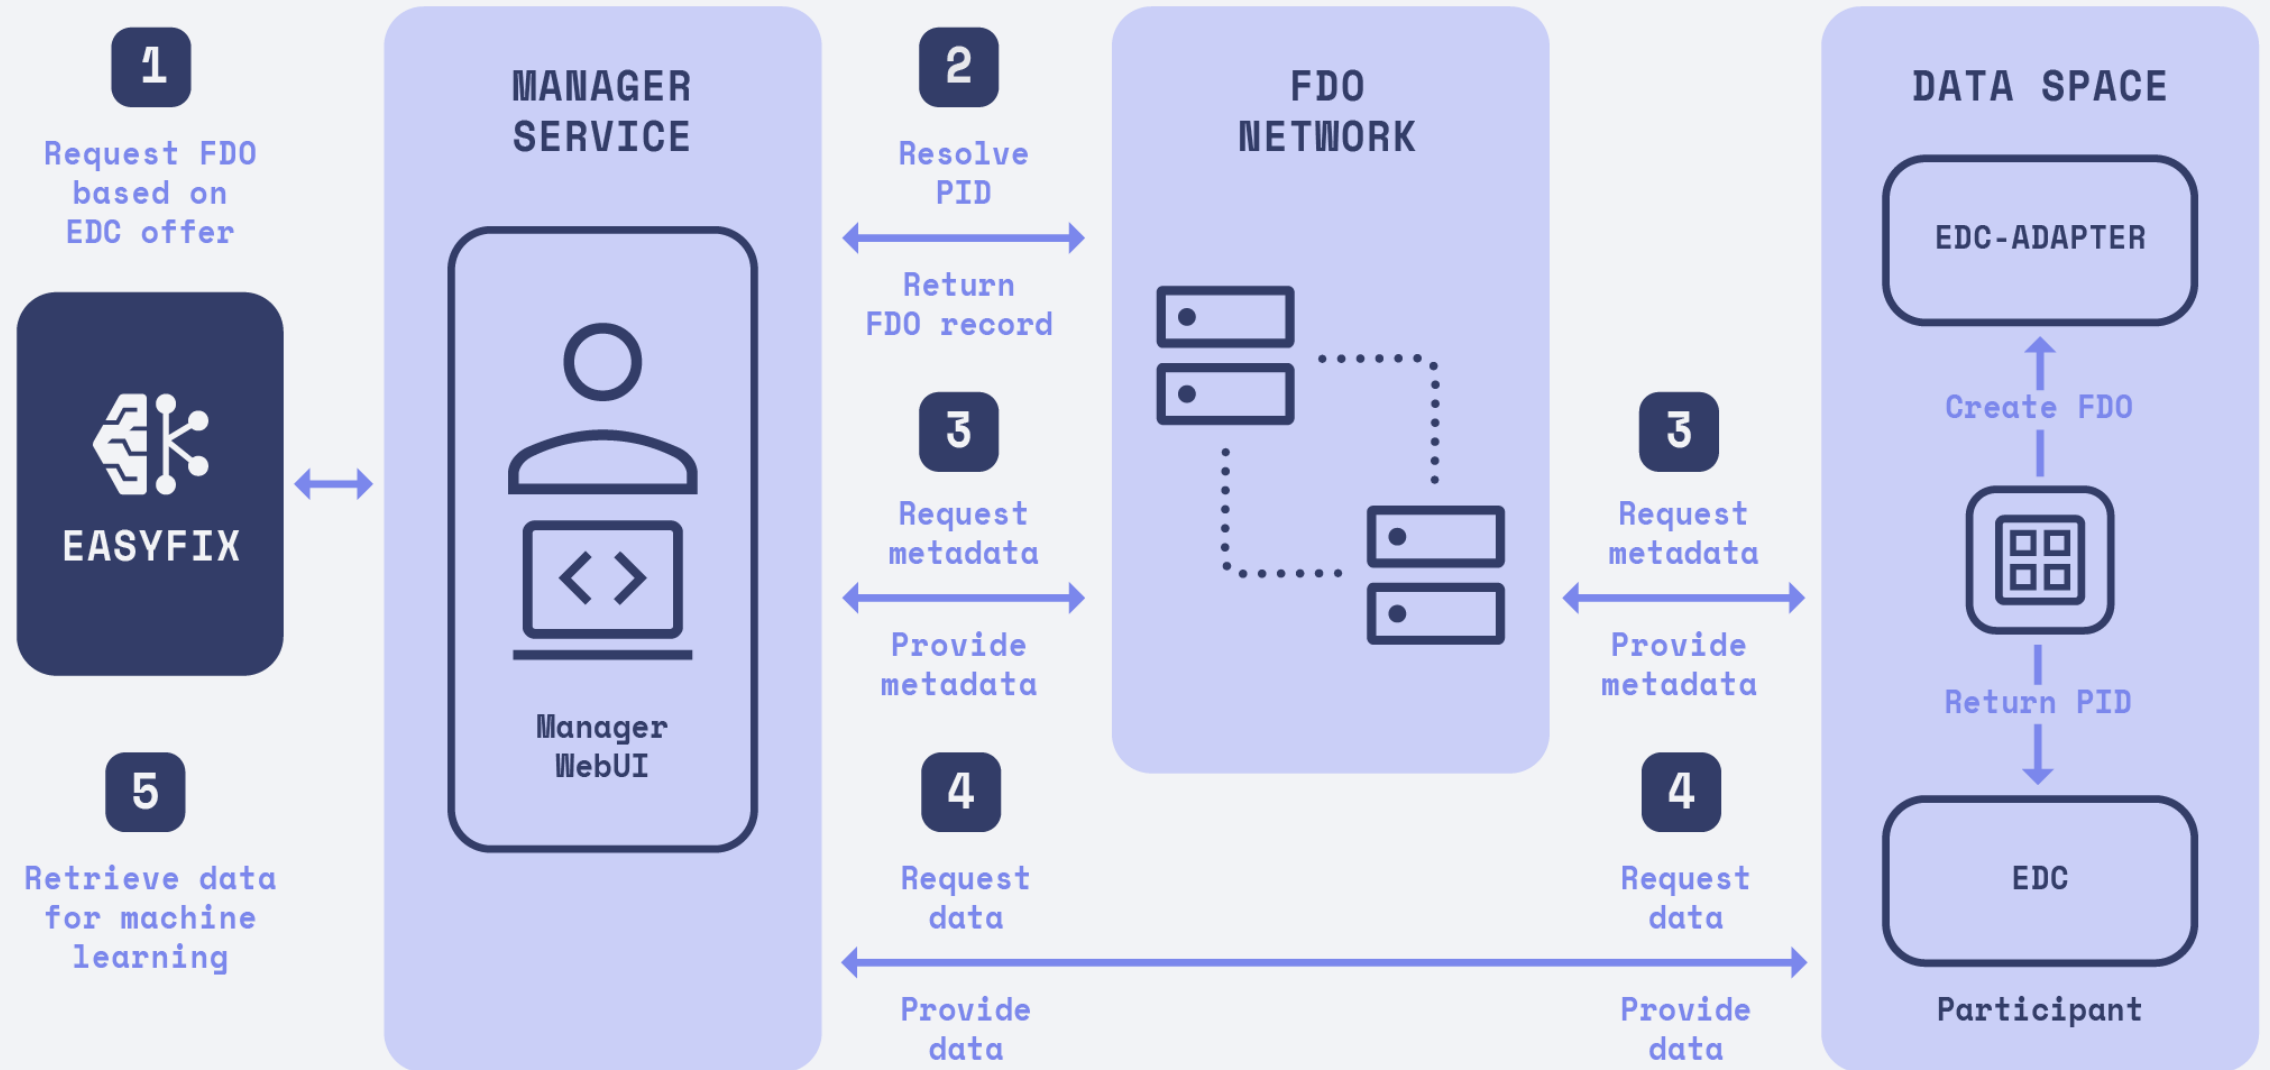

# FDO Connect

## Developing the FAIR Data Publisher

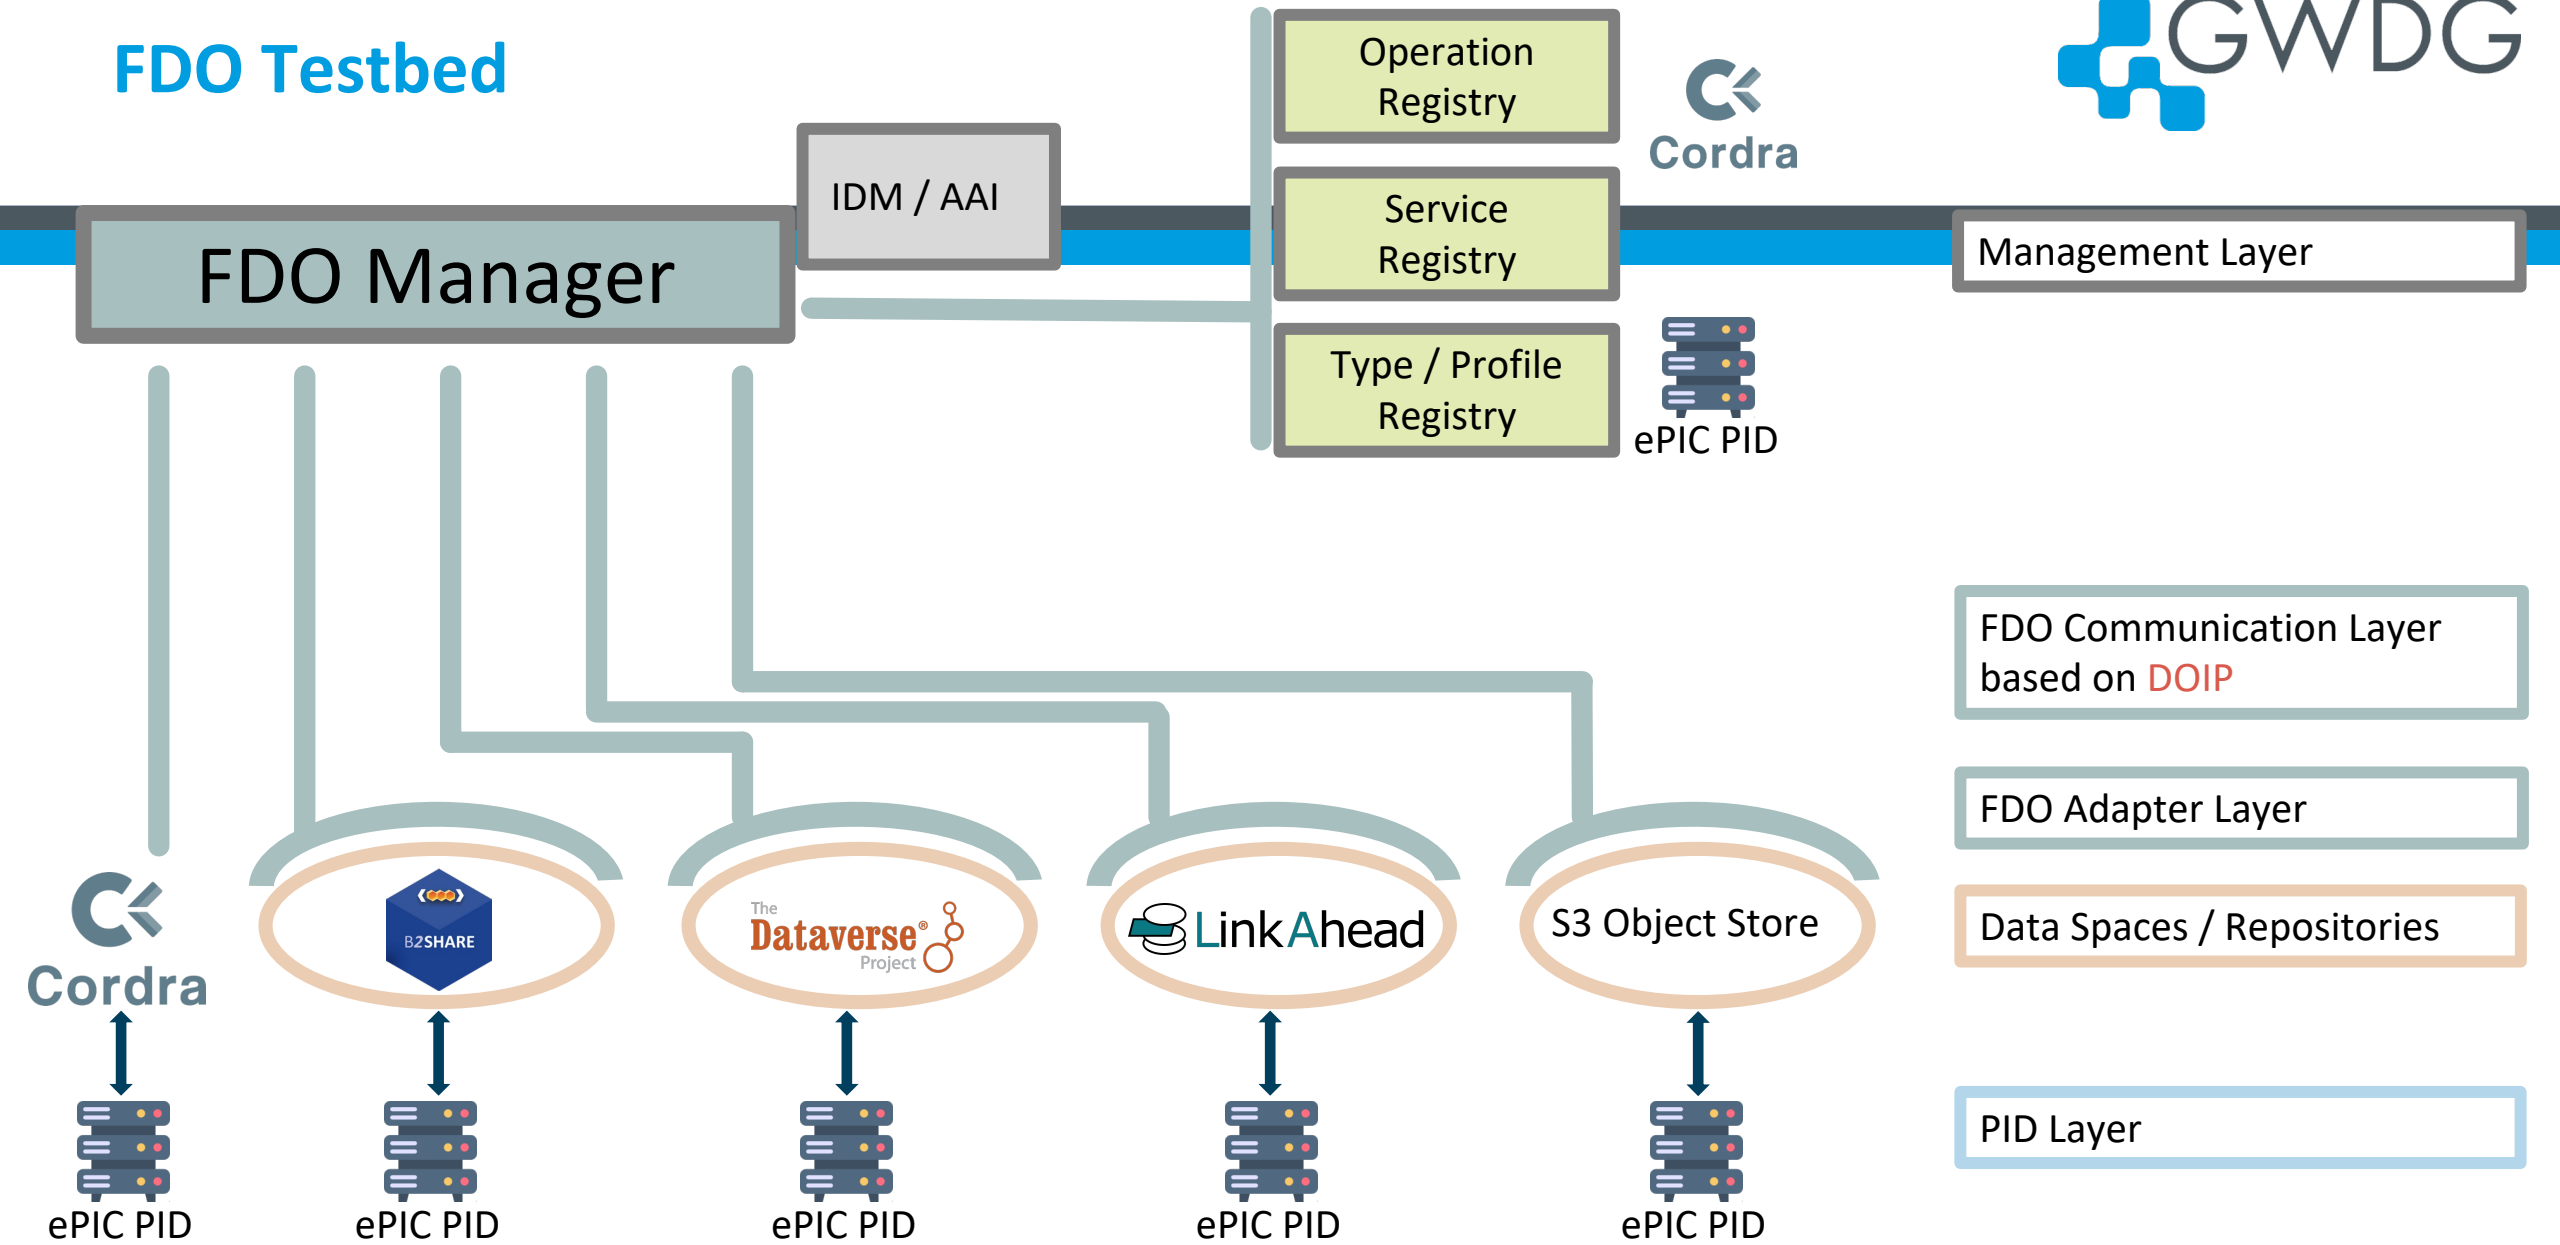

# FDO Connect

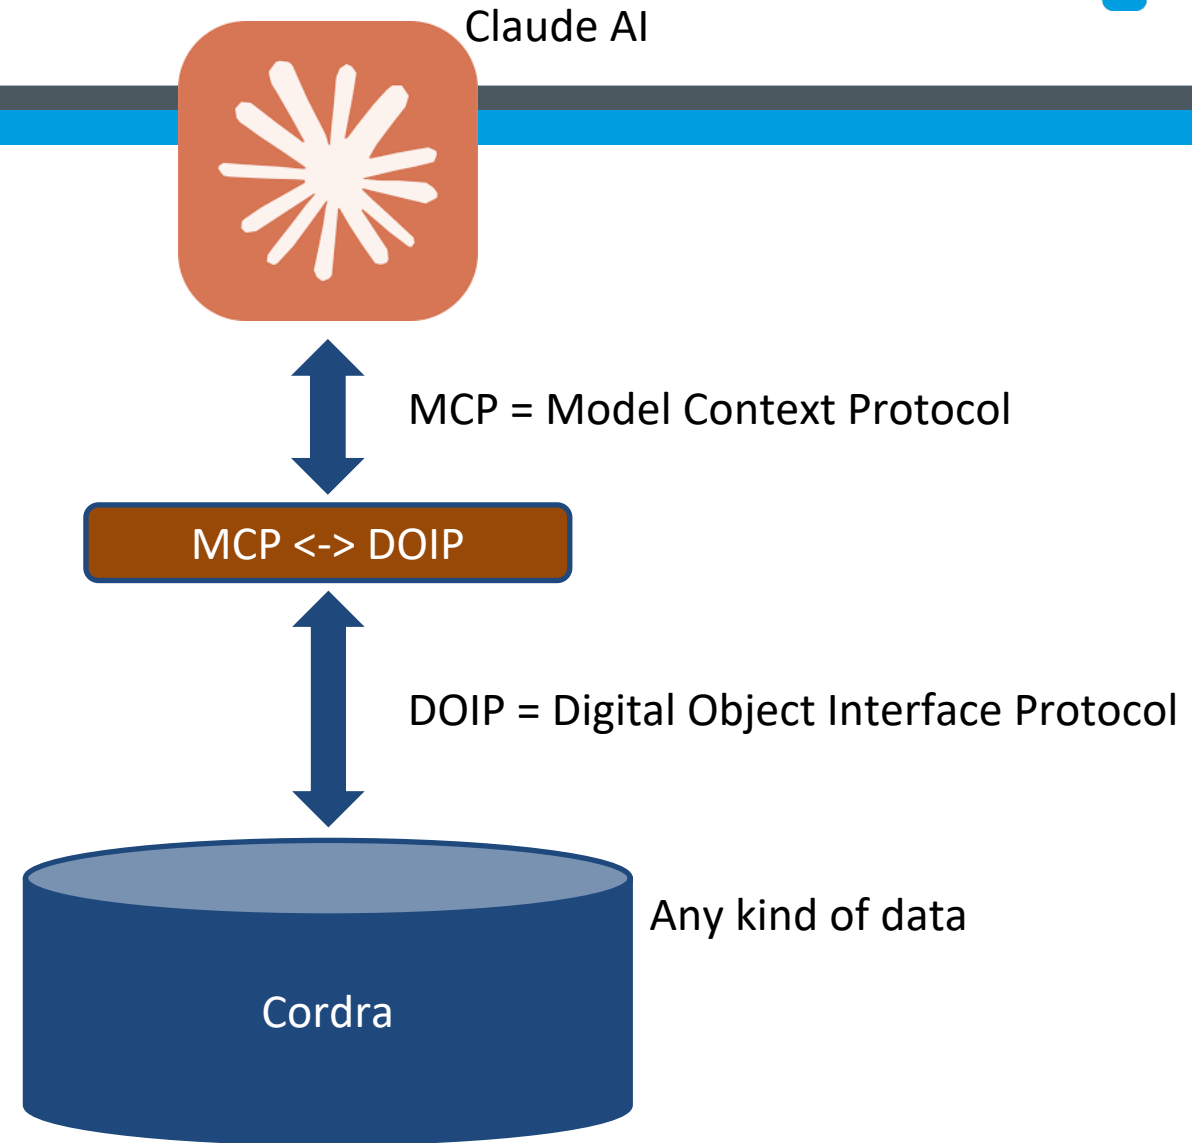

**AI**

# FDO Testbed

# AI

- Need to control the use of (digital) assets
- We do work with AI in various scenarios

**Join the community!**

# 3rd FAIR Digital Objects Conference

TU Wien  
25. – 27. March 2026

## FDO Applications and Specifications

FAIR Digital Objects underpin this Trust Framework.  
Reporting on the increasing number of FDO applications and implementations.  
Discussing FDO Interoperability challenges and ongoing specification work.

**Thanks for your attention**
